BREUIL - CERVINIA

Open daily from 26 October 2024 to 4 May 2025

Breuil-Cervinia (2,050 m), modern tourist resort at the foot of the Matterhorn, offering an impressive ski area. 150 km of slopes connected with Valtournenche, for a total of 24 ski lifts and an international connection with Zermatt, via the Cime Bianche Laghi - Plateau Rosà cable car and the Bontadini chairlift, for a total of 360 km of slopes. From Plateau Rosà, you can descend towards Zermatt or take the Ventina slope: 11 km descent from 3,480 m at the start to 2,050 m in Cervinia. The Cime Bianche Laghi area (where the cable car to Plateau Rosà starts) offers other beautiful descents served by the Goillet chairlift, which is the gateway to the Valtournenche ski area. For relaxed skiing at Plan Maison, there are convenient lifts (including the four-seater chairlifts with the Plan Maison, Fernet and Bontadini protection dome) serving slopes, also connected to Plateau Rosà, for all tastes and levels. The Cretaz and Pancheron chairlifts create a fast and comfortable access route from village to Plan Maison; while the Pancheron chairlift offers the incomparable view at the foot of Matterhorn's South Face, provides extremely technical slopes and allows off-track enthusiasts to enjoy beautiful routes. For snowboarders, the reference point is the Indianpark, considered one of the most beautiful snow parks in the Alps, equipped with rails and kickers and served by the Fernet chairlift. The Matterhorn Glacier Ride was inaugurated on 1 July 2022, completing the experience of travelling from Breuil-Cervinia to Zermatt and back via the highest border pass in the Alps. Thus, from the 2023 summer season it will be possible to travel without skis between the two renowned ski resorts, which are already ski-connected.

Departure stations at **Courmayeur cable car, Dolonne gondola lift and Val Veny cable car**. Non-skiers can enjoy the view of the marvellous peaks from the pedestrian lifts: the Maison Vieille chairlift, the Chécrouit gondola lift and the Youla and Arp cable cars. Finally, **from December to April, the Courmayeur cable car**, which departs from the centre of town, **remains open every evening until midnight**, allowing après-ski enthusiasts to stay at altitude to appreciate an aperitif or dinner while enjoying the sunset over the snow and the lights of the villages seen from above.

Skyway Monte Bianco
From 29/11/2024 to 22/04/2025

Skyway Monte Bianco connects and makes easily accessible the three stations of Courmayeur_The Valley (1,300 m), Pavillon_The Mountain (2,200 m) and Pointe Helbronner_The Sky (3,466 m), fitting harmoniously and sustainably into the natural context of Italy's highest mountain, Mont Blanc.

From Pointe Helbronner, several off-track routes and descents start, such as the iconic Vallée Blanche, between crevasses and thousand-year-old glaciers, leading all the way to Chamonix. These glacier experiences require the presence of an Alpine Guide or mountaineering expertise and equipment.

The panoramic terraces allow a view of all the Alps and all the 4,000 m of Aosta Valley: Matterhorn, Monte Rosa, Gran Paradiso and Gran Combin.

LA THUILE - Espace San Bernardo

Open from 30 November 2024 to 21 April 2025

International connection open (weather permitting) from 14 December 2024 to 21 April 2025

La Thuile (1,441 m) is a small village in a large basin dominated by the Rutor glacier, on the Little St. Bernard Pass international road (open from June to the first snowfall). Its ski area, called **Espace San Bernardo**, is *one of the largest in Aosta Valley* thanks to its **international connection** "ski on foot" with the French resort of La Rosière, and offers 152 km of slopes served by 38 lifts. It is therefore possible to ski on both sides of the Alps, up to 2,800 m, the highest altitude in the area, with the Mont Valaisan chairlifts on the French side, with a single ski pass. The heart of the ski resort can be reached from the centre of town by gondola lift and/or Bosco Express chairlift.

The slopes of this ski area offer an extraordinary variety: from the slopes and spaces for children to the fabulous sensations of the landscaped slopes for relaxing skiing to the legendary **Franco Berthod slope 3**, whose maximum gradient is 76%; the track, dedicated only to the most expert, allows you to reach La Thuile after almost four kilometres of challenging descent; in the recent past, the scenic and challenging slope has been the site of several World Cup races. In 2025, the speed queens will return for the third time to the slopes of La Thuile, that on 14 and 15 March will host the DH and SG competitions.

La Thuile is not only skiing, snowboarding and freeriding, but also **snowkiting**, a discipline practised in an area easily reached by ski lifts and located in the Little St Bernard Pass area. For **ski touring** lovers, February 2023 saw the opening of a dedicated track that can be used safely, from Les Suches to Mont Belvedere.

MONTEROSA SKI (Champoluc - Gressoney-La-Trinité - Alagna)

Open from 6 December 2024 to 21 April 2025

Monterosa Ski unites three Alpine valleys into a single ski area, at the foot of the Monte Rosa massif, between Aosta Valley and Piedmont.

This has always been a destination for the most demanding skiers, both for the care taken in preparing the slopes and for the excellent technological level of the ski lifts. **Over 100 km** of slopes and **8 alpine resorts** (Antagnod, Alagna, Alpe di Mera, Brusson Estoul Palasinaz, Champoluc-Frache, Champorcher, Gressoney-La-Trinité, Gressoney-Saint-Jean), accessible with a single ticket, connect the valleys supported by more than 765 cannons (including those on the Valsesia side of the ski area) for artificial snow, a system that guarantees the possibility of skiing on slopes even in periods of low snowfall.

You can choose to spend a day traversing the entire area on skis, starting from Champoluc and Frache in the Ayas Valley, passing through Gressoney-La-Trinité and arriving in Alagna in Valsesia; but you can also decide to experience a more intimate and cosy dimension of the area: Antagnod, Brusson and Gressoney-Saint-Jean are local resorts that can be reached by convenient shuttle services or regular buses.

- **3 valleys** linked together on skis: Ayas Valley, Gressoney Valley and Valsesia
- **1 area ski pass** valid in Champoluc, Antagnod, Brusson, Gressoney-La-Trinité, Gressoney-Saint-Jean and Alagna
- **5 area ski pass** for those who like to ski on smaller areas
- **2 Alpine crossings for skiers to pass:** Colle Bettaforca (2727 m) and Passo dei Salati (2980 m)

DYNAMIC SKI PASS

In the Monterosa Ski 3 Valleys area, fares for day, morning, afternoon and multi-day ski passes are dynamic.

What does dynamic fare mean? The starting point is always the price of the daily ski pass, with rates ranging from a minimum of € 38.00 to a maximum of € 67.00, depending on the advance purchase and the day selected for skiing.

What benefits does this bring? Favourable fares for purchases made in advance. This new approach incentivises online shopping to ensure the best available fare.

The greater the advance you buy, the greater the savings. The online price will, at all times, be more convenient than the fare charged at the ticket office. The online purchase of the ski pass will also always cost € 5.00 less than the price paid at the ticket office.

On the other hand, in **resorts stations (Alpe di Mera, Antagnod, Brusson, Champorcher, Gressoney Saint Jean and Wold)** daily and multi-day fares are at a **fixed price**, with the price list already available on this page: [Satellite ski area fares | MONTEROSA SKI](#)

The **online shop** is available here: [Buy ski pass | MONTEROSA SKI](#).

Important

The rigid medium on which each Transport Ticket is loaded is SOLD at the price of € 2.00; it does not need to be pierced, fits in your pocket (thus allowing you to ski hands-free) and should always be carried with you.

Inside the medium there is a chip that stores the ticket data and its use. The magnetic medium is valid for several years and can be used in any ski resort in Aosta Valley. The same applies if you have a keycard from another Aosta Valley resort; in this case, bring it to any Monterosa Ski cash desk to get it recharged, thus saving the € 2.00 purchase price of the magnetic medium. In case of malfunctions or breaks, the keycard must be repurchased at a cost of € 2.00.

If you already own a ski pass card from past seasons, please remember to bring it with you to the ticket office to collect your new pass.

In addition, for those who have a ski pass from previous years and want to proceed with the online purchase, the option to select is "I will bring my card".

If you do not have one, you will have to purchase the keycard at the cash desk or online when purchasing the ski pass, at a cost of € 2.00.

SUPPORT ALWAYS AVAILABLE

The Monterosa Ski staff is available for support at every stage of the purchase. To be guided through the process, please contact the InfoPoint on 0125/303111.

The **Crévacol** district lies on the territory of **Saint-Rhémy**, the last village in the Great St. Bernard Valley (1,519 m). Crévacol can cater for all the needs of skiers, from beginners to experts, who can enjoy skiing away from large crowds. It also offers ample space for snowboarders. A three-seater chairlift takes skiers to the top of the ski area at an altitude of 2,450 metres. A second chairlift and a treadmill for beginners serve the lower part from 1,640 to 2,000 metres.

VALGRISENCHÉ
Open from 07 December 2024 to 30 March 2025

Valgrisenche Ski is the lift at the foot of Gran Paradiso, a winter destination for many fans of the most authentic and less chaotic mountains, in search of true mountain sport and unspoilt nature. Nestled between Rutor group, Grande Sassièrè and Grande Rousse, Valgrisenche is known as the snowiest of the side valleys in Aosta Valley. The low temperatures in the winter and spring months mean that the snow here remains powdery for a long time. Far off the beaten track, this ski resort enjoys a privileged location amid spectacular glaciers and lush forests.

The Valgrisenche Ski area touches 2,000 metres thanks to the strategic chairlift that starts near the village centre, dividing into one blue, one red and two black slopes.

The Valgrisenche Ski offer is perfectly suited to families and those approaching downhill skiing for the first time. Beginners and babies can try their first descents, thanks to two treadmills suitable for learning. Families can also enjoy the snow park at the cable car departure point. In addition, slopes and glaciers in Valgrisenche become ideal places for adventure and sports experiences, including snowshoeing, ski touring and heliskiing, which can be booked with mountain guides.

VALTOURNENCHE
Open from 30 November 2024 to 27 April 2025

Overlooking the Matterhorn, at the foot of the majestic Grandes Murailles chain, **Valtournenche** (1,524 m) is connected via the Cime Bianche pass to the Breuil-Cervinia and Zermatt ski areas. The domaine skiable offers **54 km of slopes**, from the 3,200 m of Col Superiore di Cime Bianche, on the edge of the Ventina glacier, to the 1,600 m of the lift departure point, with tracks suitable for beginners as well as for the most hardened racers, such as the Reine Blanche, one of the longest slopes, which, if taken at Piccolo Cervino, allows 2,300 m of altitude difference and 20 km of descent.

Ascent is possible by a 12-seater gondola lift (2400 p/h) that departs from three large and convenient car parks. Among the slopes, 3 can be transformed into training or competition slopes with national and international validation equipped with a timing line.

34 km of slopes with high-pressure planned snowmaking make it possible to use all the ski lifts in the area.

At the arrival of the gondola lift, in Salette area, there is a heated picnic area with toilets, ideal for those families who do not want to give up the freedom of a home-cooked meal. For those who do not wish to make use of the picnic area, two restaurants in the immediate vicinity of the arrival station, and two others about half an hour's walk away, will tickle your taste buds. All rooms have large solariums and spaces for your children. Another refreshment point can also be found along the return slope in the lower part of the Reine Blanche.

Valtournenche ski area:

54 km of slopes: (of which **34 km** with planned snowmaking) 10 blue (16.6 km) - 12 red (35 km) - 2 black (2.4 km)

Ski lifts: 1 gondola lift + 5 chairlifts + 3 treadmills

For info on fares applied in Cervinia and Zermatt see Breuil-Cervinia.
